

## Resource 14 Solution Analysis Framework

Use this blank Solution Analysis Framework to select the best intervention for your project based upon your specifically defined assessment criteria.

Complete the Solution Analysis Framework in four steps:

1. Place your problem and the possible solutions on the left-hand side of the table
2. Place your criteria along the top of the table
3. Now give each possible solution a ranking of 1-10 based upon how well it meets that criteria (1 = criterion poorly met/ negative, 10 = criterion fully met/ positive)
4. Once you have completed this process for all your solutions and criteria, you can add up all the numbers in your table and use that as a guide to help you choose the most appropriate solution. The solution with the highest number in total is the one with the most positive outcome.

		Criterion:	Criterion:	Criterion:	Criterion:	Criterion:	Total:
Your Problem:	Your Solutions:						
	#1.						
	#2.						
	#3.
